

# XSwitch indoor: inventory and assembly

## Inventory

*XSwitch indoor: inventory of equipment*

## Assembling the antennas

Do not screw the antennas too tightly to facilitate their disassembly.

Do not screw the large antenna for GSM onto the connectors reserved for small antennas: risk breaking the connector!

1 Long Range  
Bluetooth antenna  
on USB port

Wifi antenna

*Front*

GSM Antenna  
(Cellular)

Power supply 220V

*Back*

Ethernet port  
RJ45

Note: it is possible to use antennas with extension cable (contact TRAXxs for more details).

The Bluetooth Long Range antenna can be extended with a USB extension cable
